connorfitts8@gmail.com | 618-421-2990 | [LinkedIn](#) | Saint Meinrad, IN

Education

Indiana State University, Terre Haute

Bachelor of Computer Science | August 2023 – Present | GPA: 3.6

Lincoln Trail College, Robinson

Associate of Science and Arts | August 2021 - May 2023 | GPA: 3.5

Technical Skills

Languages: C, Python, JavaScript, HTML, CSS, SQL (SQLite)

Frameworks & Libraries: React, Flask, Node.js, Bootstrap, React Router

Technologies: Git, GitHub, VS Code, Postman, Linux/Unix Shell, Virtualization (Debian, UTM)

Projects

Full-Stack Movie & TV Database Application | Python, Flask, React, SQLite

- Built a full-stack movie and TV discovery platform integrating OMDb and TMDb APIs to retrieve real-time metadata and ratings
- Implemented secure user authentication with bcrypt password hashing, session management, and a multi-step password reset workflow
- Designed personalized features including user watchlists, likes, and dynamic filtering/sorting with a React frontend and relational SQLite backend

Custom Version Control System | Python

- Implemented a simplified Git-like version control system supporting commits, staging, and history tracking
- Designed a content-addressable storage model using SHA-1 hashing for file deduplication
- Developed a CLI replicating core Git workflows including init, add, commit, log, and checkout

Custom HTTP Web Server | C, POSIX Sockets, Linux

- Built a lightweight HTTP/1.1 server from scratch in C using low-level POSIX socket APIs
- Implemented request parsing, routing for API endpoints, and static file serving
- Added directory traversal protection, MIME type detection, and structured request logging
